## Combining the full power of hCG with expert medical guidance to help clients lose weight

As New Year's resolutions slowly fall by the wayside, it is comforting to know that there are still experts out there that have been helping locals lose weight for many years. Slender Fit U in Davie is a leading medically-supervised weight loss clinic that makes sure that their clients are meeting their health goals, too. Their doctors know more than anyone else about using hCG as a weight loss tool.

Slender Fit U is run by 'the hCG Guru' Geri Kelleher, who herself lost 25 pounds using a hCG regimen and has since helped thousands of people do the same.

"We've been doing this longer than any other clinic," said Kelleher, Slender Fit U's Founder and Program Director. "We're the specialists in hCG. But the most important thing to us is how well we treat our clients. From the moment someone walks in the door to sitting down with one of the doctors and any time in between, we want to make sure that our clients feel like they have everything they need to lose weight and feel great."

Slender Fit U works to make sure that their program will be each client's last diet and their best diet, as they do not use any pills or expensive, pre-packaged meals. Dieters there often lose 1/2 to two pounds per day, and 90% of their patients are able to successfully maintain their weight loss once the program is complete. Using Slender Fit U's 23-day program, women often lose around 15 pounds while men lose between 20-25 pounds. In their 46-day regimen, women typically lose up to 30 pounds while men can lose 40-50 pounds.

Clients are often impressed with how rapidly and painlessly they lose weight when

working with Slender Fit U. After an initial consultation that includes a same-day physical exam with one of their doctors, patients receive individual counseling and support along the way, which is all included in the original price. For people who are often in a crunch for time, exercise is nice but not necessary here since the regimen reshapes your body and helps you burn off fat. They also offer supplementary vitamin B12 shots to help with low energy levels.

The science behind Slender Fit U's success begins with hCG, short for *Human Chorionic Gonadotropin*, a protein naturally found in the human body. Different therapies involving hCG have been around since 1953 as hCG triggers the brain's hypothalamus so that it starts releasing body fat and starts using remaining fat for fuel. The beauty of this approach is that the body just burns off fat instead of muscle, and dieters are not simply losing water weight. Slender Fit U only uses the highest quality hCG in the strongest recommended dosage, unlike some other clinics that dilute their products.

Once someone has gone through Slender Fit U's program, they often realize that their entire relationship with food has changed for the better. Their clients still eat regular food, as only avoiding carbohydrates is recommended. Proteins, fruits, and vegetables are all a part of their low-calorie diet as participants are already receiving all the calories they need from their own body fat. Roughly 80% of their clients report feeling little to no hunger during the regimen, and some say they feel like they are overeating just to reach the 800 calorie maximum.

### Real Results

Jessica Cornilliac of Sunrise recently lost 38 pounds in six weeks working with Slender Fit U. She's starting their program again with a goal of losing 20 more pounds.

"I had tried every diet possible, but after my first visit at (Slender Fit U), I was ready to start right away," said Cornilliac. "They were very detailed, showed me the results of the regimen and told me everything I needed to know. I loved being there, everyone was very personable. I was worried about sticking to the diet when I was going on a trip to Disney, but it was fine and they even called me on Monday to see how the trip went. They really care and shared in the joy of me losing weight."

**Slender Fit U is located at 12515 Orange Drive, Suite 815, in Davie, with a second office in Coral Springs. Schedule a consultation at 954.423.1376.
